

exceet acquires M2M Specialist LUCOM

LUCOM adds secure products for remote service, automation and communications technology to exceet M2M solution portfolio.

Luxemburg, December 5, 2014 – exceet Group is acquiring 100% of shares in LUCOM GmbH Elektrokomponenten & Systeme, a leading provider of industrial routers based in Zirndorf (Germany). LUCOM’s DIGICLUSTER VPN portal offers an easy approach to M2M projects. LUCOM generates sales of approx. EUR 4 million per year.

exceet offers its clients an end-to-end approach to solutions, from innovative concepts to the transformation of business models. Industrial routers and VPN solutions by LUCOM now complement exceet’s highly customer-specific portfolio. LUCOM is known for its strong variant portfolio, individualized services and long-standing experience. Services by LUCOM provide smart and secure solutions that are particularly well suited to M2M ventures.

In future, LUCOM will act as an integral component of the exceet Secure Solutions business unit, which specializes in consulting and implementation services for M2M, security and eHealth solutions.

“Acquiring LUCOM allows exceet to offer its clients both standard and customized devices”, says Ulrich Reutner, CEO of exceet Group SE. “Our customers now profit from increased project flexibility”.

“We look forward to our future collaboration with the exceet team, which lets us offer our clients even more finely customized services for their projects”, adds Gerhard Galsterer, who will continue as business director of LUCOM GmbH. “Under exceet’s leadership we plan to continue on our path of growth and intend to orient ourselves more internationally”.
