

exceet to merge development and manufacturing competency under new umbrella brand exceet electronics

***Rotkreuz, January 12, 2015* – Effective January 1, 2015, three member enterprises of exceet Group, namely as electronics GmbH, Contec GmbH and Mikrap AG, will begin operation the joint brand name exceet electronics.**

Collaboration between the companies as electronics GmbH, Contec GmbH and Mikrap AG within exceet Group was already intensified in 2014 to expand the product and services portfolio addressing the development and production of complex electronic modules, components and systems for industrial and medical technology uses.

The merger will enable even more intensive, end-to-end support for client projects and their diverse requirements. exceet electronics is positioned to cover the entire value chain, from consulting to development, from production to process optimization and on to professional outsourcing of our clients' assembly groups and complete systems. The decision as to which components from our services toolbox are needed remains entirely up to the customer.

“We are convinced that this fusion of competencies will benefit our clients by offering them a broader development, manufacturing and services portfolio and satisfying the demands they place on a full-service provider – today and tomorrow. Whether in Germany, Austria or Switzerland, we will continue to collaborate closely with our clients and orient ourselves fully on the requirements and wishes of our customers”, explains Holger Wußmann, CEO of exceet electronics.

The existing product portfolio in the field of display products as well as SPS and E/A modules and the expanded range of services make exceet electronics the ideal partner for industrial electronics and automation.

Our many years of experience and our profound knowledge of regulatory frameworks and processes in medical technology also guarantee successful, client-specific medical products with long-term availability.

About exceet Group

exceet is an international technology corporation specializing in the development and manufacture of intelligent, complex and secure electronics.
