

## Ranking: In the top 30 percent!

2016-04-28

EcoVadis results of Constantia Flexibles Group have been published

Constantia Flexibles has obtained a high ranking in the course of its CSR assessment and for this reason has been awarded a silver recognition level. This good result places our company among the top 30 percent performers evaluated by EcoVadis.

In 2015 Constantia Flexibles has been already recognized with a strong CDP climate score rating for its highly transparent climate reporting and climate protection efforts. The company has achieved 100 percent when it comes to the disclosure score and was rated with a “B” rating with regard to its contribution to climate change mitigation, adaptation and transparency.

CEO Alexander Baumgartner said: “We are proud to be in the top 30 percent of the evaluated companies. This shows that it is the right strategy to maintain the highest standards of transparency in reporting while reducing emissions sustainably”
