## STAHL APPOINTS NEW AGENTS FOR PROMOTION IN UK AND AUSTRIA

2015 02 19

**Waalwijk, 18 February 2015 – As of January this year, Stahl has appointed two independent agents in the UK and Austria. Peter Dunne has been appointed as Stahl’s external Business Agent for the automotive leather and specialty chemicals business in the United Kingdom. Tradco GmbH has been appointed as external Business Agent to promote Stahl’s Performance Coatings and Polymers in the Austria territory. This is fully in line with Stahl’s premise: think global, act local. Working close with partners and clients – literally – is vital to provide customers with tailor-made solutions.**

As a leading company in process chemicals for leather and other substrates, Stahl knows what is important to its clients. “Stahl’s innovative solutions offer premium performance, while reducing the environmental impact,” says Peter Dunne. “Showing UK companies the outstanding solutions of Stahl is great opportunity for me.” Industry veteran Peter Dunne will promote Stahl’s business, focussing on leather chemicals for the automotive industry, performance coatings and Stahl Polymers. Peter is very familiar with the industry. He has been working in several technical and commercial positions at Clariant for more than 30 years.

Tradco GmbH will promote Stahl’s business in Austria, focusing on Performance Coatings and Stahl Polymers. “Stahl is the global market leader in performance coatings. Next to that, they have over 50 years of experience in polymer technology. We are looking forward to show Austrian companies what possibilities Stahl’s latest solutions bring to the table”, says Mikowitsch of Tradco. Tradco has worked for many years in the coatings and polymers industry and is well known in the segment. Based in Vienna, Tradco is managed by Herbert and Alexander Mikowitsch.
