

Gulfood: Life in the desert!

2015-10-28

Successful start: Constantia Flexibles Food Division exhibits at Gulfood Manufacturing for the first time

It is a premiere for Constantia Flexibles – exhibiting at Gulfood Manufacturing for the first time. The trade fair which takes place in Dubai, is the biggest event in the region and gathers the food industry as well as packaging suppliers from the Middle East.

Constantia Flexibles is showcasing its full product range for the food industry, such as dairy applications, packaging for confectionery film and foil, stand up pouches, laminates for dehydrated foods, coffee laminates and more.

“We had a great and very busy first and second day. There were many visitors at our booth from the whole Middle East – which is important since we are attending the fair to make our broad product portfolio even better known in the region”, says Omar Boukili, Marketing Manager Food Emerging Markets at Constantia Flexibles. “The trade fair is a great opportunity to present ourselves - more than 30,000 global food and beverage manufacturers will be here to buy machinery, source new ingredients and access transport and packaging solutions.”

Gulfood Manufacturing:

Gulfood Manufacturing is a trade show and conference designed for food and beverage process industries operating within the Middle East, Africa and Indian sub-continent. With over 1500 exhibitors showcasing every line of business needed to build world class food and beverage production capability, Gulfood Manufacturing is where all the solutions to your customised needs can be found whatever your business sector, be it meat, bakery, beverage, confectionery, fats, oils, dairy, snacks or seafood.
