

Stahl opens Dyes Center of Excellence in Mumbai

In June a new state-of-the-art Dyes Center of Excellence in Thane, Mumbai was opened. The center will focus on the testing and development of existing and new dyestuffs. With the opening of this new Dyes center, Stahl is able to meet and exceed the international quality standards in the leather industry by offering the newest global solutions.

“The decision to open this Dyes Center of Excellence is fully in line with our position as industry leader in the Wet-End leather segment,” explains CEO Huub van Beijeren, who formally inaugurated the center. “Furthermore, this center will become a hub for testing and maintaining the quality of dyestuffs in line with any international norms and beyond. Here we will focus on high-end analysis of leather dyes and new product development to support the Wet-End leather segment”, Tuncay Deriner adds, Managing Director of Stahl India and IPB region. Stahl is quality-conscious and the center will ensure that only fully-tested quality dyes ranges are supplied to the customers.

State of the art testing

The new center is equipped with state-of-the-art machines to cater to customers’ needs. “It provides us with the opportunity to perform physical testing, computerized color value analysis, impurity profile by thin layer Chromatography, as well as all standard leather processing operational processes”, Sopan Zope - Dyes Development Manager - explains.
