

Stahl Polymers expands Univar distributor agreement to the UK, Ireland and Switzerland

Waalwijk, 19 August 2016 – Stahl Polymers expands its agreement with independent distributor Univar. In July 2016, the company has been appointed for all promotional activities of Stahl Polymers in the UK and Ireland. Within a few weeks, they will also cover these activities in Switzerland. Stahl decided to enlarge the agreement because of their accomplishments in other European countries. The enhanced cooperation is fully in line with Stahl's premise: think global, act local.

Alan Coughlin will promote Stahl Polymers' business in the UK and Ireland. 'Stahl Polymers has over 50 years of experience in polymer technology. We are glad to show companies in the UK and Ireland their latest, sustainable solutions,' Coughlin explains.

Helge Pralle, who will be in charge of the promotional activities in Switzerland, adds: 'Being appointed for the promotional activities in Switzerland is a great appreciation of our achievements in other European countries.'

'For us, it was a logical choice to enhance Univar's work area for promotional activities. We believe in solid cooperation with agencies like Univar, who share our values and knowledge of polymers,' comments Global Business Director of Stahl Polymers Raymond Bakker.

The Stahl Polymers work area of Univar now includes: Czech Republic, Slovakia, Poland, Romania, Hungary, Austria, Serbia, Slovenia, Bosnia Herzegovina, Bulgaria, Croatia, Hungary, Montenegro, the UK, Ireland and Switzerland.
